PROFESSIONAL SUMMARY

Final-Year B.E. Computer Science Engineering student with a Minor Degree in Artificial Intelligence from IIT Mandi, with a 9.1 CGPA and hands-on experience building full-stack and AI-powered applications using React.js, FastAPI, Node.js, Python, MongoDB, REST APIs, Git, and cloud platforms. Experienced in developing production-style features, collaborating in teams, and working across the software development life cycle. Strong foundation in DSA, DBMS, OOP, AI/ML, cloud computing, and problem solving, with a strong interest in AI-powered products and rapid application development.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C, C++

Frontend: React.js, HTML5, CSS3, Bootstrap, Vite

Backend & APIs: FastAPI, Node.js, Express.js, REST APIs, JWT, PHP

Databases: MongoDB, MySQL, PostgreSQL

AI & ML: Artificial Intelligence, Machine Learning, Deep Learning, Generative AI

Cloud & Dev Tools: Google Cloud Platform, AWS, Git, GitHub, Vercel

Core CS: Data Structures & Algorithms, DBMS, OOP, Computer Networks, Operating Systems

Other: Prompt Engineering, Problem Solving, Communication, Team Leadership, Teamwork

EXPERIENCE

Full Stack Developer Intern | Aventiq Innovations Pvt Ltd (Aug 2026 - Present)

- Developed the SmartTrace Platform, an integrated digital solution for the ABIOT-E-SAFE Biomedical Waste Treatment Machine, enabling smart monitoring, traceability, and data management of biomedical waste treatment operations.

Full Stack Developer Intern | Krytil Pvt Ltd (Jan 2026 - June 2026)

- Led a team of 5 developers in building a full-stack recruitment platform with authentication, job posting, candidate management, and recruiter dashboards.
- Worked across frontend, backend, REST APIs, database workflows, and collaborative Git-based development.

Web Developer Intern | Coincent (Aug 2024 - Sept 2024)

- Built 4+ responsive web applications using frontend and backend technologies, strengthening practical experience in application development and end-to-end web workflows.

PROJECTS

Day Zero - AI-Powered Water Emergency Planner

- Developed an AI-powered emergency planning application integrating weather data and forecasting workflows to support water emergency planning.

Tech: React.js, FastAPI, Python, Vite, Gemini AI, Three.js, Open-Meteo API, Monte Carlo Simulation

Krytil Jobs Web Application

- Built a recruitment platform as part of a 5-member team, supporting core workflows for authentication, job posting, candidate management, and recruiter dashboards.

Tech: React.js, FastAPI, Python, MongoDB, JWT, REST APIs, Git, GitHub

E-Locate - E-Waste Management Facility Locator

- Developed a platform to help users locate e-waste recycling facilities using location and map-based functionality.

Tech: React.js, Node.js, Express.js, MongoDB, Google Maps API, JWT, REST APIs, Vercel

EDUCATION

B.E. in Computer Science Engineering | Atria Institute of Technology | CGPA: 9.1 | Expected 2027

Minor Degree in Artificial Intelligence | IIT Mandi | 2026

CERTIFICATIONS

Google Cloud Study Jam | Google Generative AI Study Jam | PHP & MySQL - IIT Bombay | Infosys Python | Infosys DevOps | Krytil Internship Completion | Coincent Internship Completion

ACHIEVEMENTS & LEADERSHIP

- Consistently maintained a 9+ SGPA across all semesters.
- 1st Prize - State Level Kannada Essay Writing Competition.
- Earned official Google rewards for completing the Google Cloud & Generative AI Study Jam.
- Participated in various intra-college, inter-college, and state-level hackathons, applying full-stack and AI skills to collaborative problem-solving.
